

Office of the President

November 2002

Humboldt State University is committed to the safety of students, faculty, staff and visitors on our campus—especially in the event of emergencies or disasters. Therefore, it is important that we plan for emergencies before they occur.

Please find enclosed a copy of our Emergency Management Plan which has been updated in accordance with the State Standardized Emergency Management System (SEMS) and the California State University Incident Command System (ICS). Please take some time to review this plan so that it can be used effectively if an emergency occurs.

Thank you!

Sincerely,

A handwritten signature in cursive script that reads "Rollin C. Richmond".

Rollin C. Richmond
