

## Plan Objectives

---

The management of emergency operations requires planning for and responding to the involved events. The objectives to be accomplished include:

- ◆ Managing the care of persons and their movement when it is necessary.
- ◆ Collecting and evaluating damage information and other essential data.
- ◆ Preparing and disseminating Emergency Public Information.
- ◆ Activating and using communications systems.
- ◆ Establishing priorities and resolving conflicting demands for support.
- ◆ Requesting and allocating resources and other support.
- ◆ Coordinating mutual aid.
- ◆ Coordinating or maintaining liaison with appropriate federal, state and local government agencies and applicable segments of the private sector.
- ◆ Managing and coordinating overall emergency operations (to include on-scene incident management).
- ◆ Re-establishing normal campus operations.
